Xbox

- System Requirement: Ensure your Xbox console is updated to the latest system version.

Wireless Connection

1. Connect the adapter to the USB port of your Xbox device.
2. Press the **Xbox button** to turn on the Arcade Controller.
3. After the connection is complete, the **Status LEDs** on both the Arcade Controller and the adapter will remain solid.

Wired Connection

1. Connect the Arcade Controller to your Xbox console via the USB cable.
 2. Press the **Xbox button** to turn on the Arcade Controller, wait until the Arcade Controller is successfully recognized by the Xbox console.
-

Windows

- System requirement: Windows 10 (1903) or above.

Wireless Connection

1. Connect the adapter to the USB port of your Windows device.
2. Press the **Xbox button** to turn on the Arcade Controller.
3. After the connection is complete, the **Status LEDs** on both the Arcade Controller and the adapter will remain solid.

Wired Connection

1. Connect the Arcade Controller to your Windows device via the USB cable.
2. Press the **Xbox button** to turn on the Arcade Controller, wait until the Arcade Controller is successfully recognized by the Xbox console.

Tournament Lock Switch

- Turn the **Tournament lock switch** to **Lock** position, **Star button**, **Profile button**, **RGB button**, **Xbox button**, **View button**, **Menu button**, and **Share button** will be disabled, to prevent unintentional inputs from impacting game.

Power LED

Red LED blinks

Green LED blinks

Green LED remains solid

- Built-in 3000mAh battery pack, the Arcade Controller can be used for approximately 10 hours with the light on and up to 40 hours with the light off, rechargeable with 4 hours charging time (5V-1A).
- The Arcade Controller will automatically shut down if it fails to connect within 1 minute of startup, or if there are no operations within 15 minutes after establishing a connection.
- The device will not automatically power off when connected to 3.5mm headphones for audio playback.
- The Arcade Controller will not shut down during wired connection.

Re-pair the Adapter

If the Arcade Controller is disconnected from the adapter or the adapter is replaced, you can re-pair it by following these steps:

1. When the Arcade Controller is powered off, press and hold the **Star button+Profile button+Xbox button** to turn on, and the **Status LED** will blink rapidly.
2. Connect the adapter to the USB port of your Xbox console or Windows device, wait for the Arcade Controller to automatically pair and connect with the adapter.
3. After the connection is complete, the **Status LEDs** on both the Arcade Controller and the adapter will remain solid.

Safety Warnings

- Please always use batteries, chargers, and accessories provided by the manufacturer.
- The manufacturer is not liable for any safety issues arising from the use of non-manufacturer-approved accessories.
- Do not attempt to disassemble, modify, or repair the device yourself. Unauthorized actions may result in serious injury.
- Avoid crushing, disassembling, puncturing, or attempting to modify the device or its battery, as these actions can be dangerous.
- Any unauthorized changes or modifications to the device will void the manufacturer's warranty.
- This product contains small parts that may cause choking. Not suitable for children under three years old.
- This product features flashing lights. Individuals with epilepsy or photosensitivity should disable the lighting effects before use.
- Cables may cause tripping or entanglement hazards. Keep them away from walkways, children, and pets.
- Stop using this product immediately and seek medical attention if you experience dizziness, visual disturbances, or muscle spasms.
